### ***The Draw***

A Members Badge Number will be selected randomly through our computerised Membership system (Ebet) by way of a Random Number Draw. The Badge Number announced by our promotion host at the completion of the random number draw will be the lucky member drawn and will have 4 minutes to claim the prize. The draw will be conducted fairly and in line with the permit, Management/Promotion Hosts decision is final and no correspondence will be entered into.

Should the prize not be claimed the next scheduled draw jackpot will increase by \$250. Should there be no winner at the end of the night we will give away a consolation prize of \$500 – the consolation prize winner/s will be determined by whoever has the nearest badge number to the last number drawn that night. Once the badge draw time limit has expired the person with the nearest number to the last number drawn will have 4 minutes to present themselves to the host to claim the \$500. If there are 2 winners then the money will be split evenly between the 2.

For eg; the 9pm draw takes place the badge number drawn is: 1974 that person is not present at the time of the draw and time elapses. The host will then announce that if you think you have the nearest badge number to the last number drawn then make your way to the host within 4 minutes and whichever member has the nearest number to the last number drawn is the winner. If there are 2 people present with an equal distance to the nearest number then the \$500 will be split between the 2 (\$250 each). Please Note: A re-draw will take place if the number drawn is an ineligible number (eg; Staff, Management, Director, on-duty contractor) and the closest number will apply to the redrawn number (not the ineligible number). No consolation prize will be issued until all members present at the time of the draw have a chance to present themselves to the host during the 4 minute period to see whether they have the closest number.

### ***Prize Particulars***
